SUPPLEMENTAL DETAILED ACTION

EXAMINER' S AMENDMENT

1. An examiner' s amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner' s amendment was given in a telephone interview with Arnold Weintraub on May 11, 2004.

The application has been amended as follows:

In claim 11, delete, in line 1, the words "claim 10" and insert in its place the words "claim 1".

Allowable Subject Matter

1. Claims 1-8, 11, and 13-18 are allowed.
2. The following is an examiner' s statement of reasons for allowance: The primary reasons for allowance is the inclusion of a conductive pigment comprising a mixture of (a) carbon black and (b) a pigment selected from the Markush group in claim 1 in combination with a photoinitiator blend in an electroconductive primer/sealer compositions for SMC parts. While the prior art teach using conductive pigments in sealer/primer compositions for SMC parts, the prior art fails to expressly teach and/or fairly suggest a conductive pigment blend comprising carbon black with graphite, nickel, and/or antimony-doped tin oxide (ATO). Therefore the instant application is deemed distinguished over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
